Planning and Designing a Pharmaceutical Facility: A ... Process Design Once a new candidate active compound has been identified, a pharmaceutical company sets out to develop the manufacturing process. Almost without exception this results in the generation of a batch process though it is well understood that continuous processes are more efficient and cost only a fraction of the equivalent batch. Process design for pharma manufacturing - NNE Pharmaceuticals expertise. Our specialised knowledge of biopharmaceutical manufacturing is focused in five areas: Designing a Single-Use Biopharmaceutical Process ... Designing a Single-Use Biopharmaceutical Process. ... and the layout must prevent cross-contamination. As part of the process design, and as a best practice, users should layout the floor plan, using actual equipment dimensions. ... please cite it as J. Markarian, "Designing a Single-Use Biopharmaceutical Process," Pharmaceutical Technology 42.

Standard Practice for Pharmaceutical Process Design ... This practice covers pharmaceutical process design utilizing process analytical technology, which is integral to process development as well as post-development process optimization. It is focused on practical implementation and experimental development of process understanding. The principles in. Pharmaceutical Quality by Design (QbD): An Introduction ... The pharmaceutical Quality by Design (QbD) is a systematic approach to development that begins with predefined objectives and emphasizes product and process understanding and process control, based on sound science and quality risk management.
